

Ross Lovegrove (World renowned Industrial Designer)

MDES RCA FCSD FUVIC RDI

Philosophy

Ross Lovegrove is a designer and visionary who's work is considered to be at the very apex of stimulating a profound change in the physicality of our three dimensional World.

Inspired by the logic and beauty of nature his designs possess a trinity between technology, materials science and intelligent organic form, creating what many industrial leaders see as the new aesthetic expression for the 21st Century.

There is always embedded a deeply human and resourceful approach in his designs, which project an optimism, and innovative vitality in everything he touches from cameras to cars to trains, aviation and architecture.

Born 1958 in Cardiff, Wales.

Graduated from Manchester Polytechnic with 1st Class BA Hons Industrial Design in 1980. Master of Design of Royal College of Art, London in 1983.
